

Dear Sirs, Airl radio station which operates in FM serves me and my family every morning and afternoon in our drive to work & school by providing positive music that uplifts & helps us to relax and feel good in an otherwise hectic (traffic) environment. If it were replaced by LPFM I believe it would have a negative impact, as only elevator music would be the alternative to something decent on the air waves. It is in the public's interest to have FM stations such as Airl on, as I know many people who like it, listen to it and find a great sense of peace & relaxation just by listening to its no commercial, continuous positive music format. Please consider an alternative for LPFM, and keep FM as it is.

Regards, M. Castillo
